

ATS/CIRA Colloquium

Everette Joseph
from NCAR

3 p.m. Thursday, April 7
ATS 101 or Microsoft Teams
Hosted by David Randall

Actionable Earth system science for society's challenges

NCAR Director Everette Joseph will discuss how NCAR is positioning itself to ensure that its science is meeting the needs of a society facing unprecedented environmental challenges. Joseph will discuss how NCAR is leading and enabling the community, its latest projects and opportunities for collaboration, and how the center is working to develop a more diverse workforce for the future. He will also discuss opportunities for students, early career staff, and university colleagues.
